

# Ersatzteilliste AVE Serie

## AVE 204 - 208

## AVE 215 - 455

| Pos.   | Bezeichnung               | Artikelnummer | Typ           |
|--------|---------------------------|---------------|---------------|
| 01     | Kabelsatz 10m 230 V       | AV01204208V   | AVE204 – 208  |
|        | Kabelsatz 20m 230V        | AV01215315V   | AVE215 – 315  |
|        | Kabelsatz 20m 400V        | AV01215322V   | AVE215 – 322  |
|        | Kabelsatz 20m 400V        | AV01437455V   | AVE437 – 455  |
| 02     | Traggriff                 | AV02215455VA  | AVE215 – 455  |
| 02 - 1 | Handgriff                 | AV02204208VA  | AVE204 – 208  |
| 03 – 1 | Pumpenkopf                | AV03204000    | AVE204        |
| 03     |                           | AV03208000VA  | AVE208        |
|        |                           | AV03215315VA  | AVE215 – 315  |
|        |                           | AV03322000VA  | AVE322        |
|        |                           | AV03437455VA  | AVE437 – 455  |
| 04     | Lagerhalter               | AV04204000    | AVE204        |
|        |                           | AV04208000    | AVE208        |
|        |                           | AV04215315    | AVE215 – 315  |
|        |                           | AV04322000    | AVE322        |
|        |                           | AV04437455    | AVE437 – 455  |
| 05     | Motorgehäuse inkl. Stator | AV05204000VA  | AVE204        |
|        |                           | AV05208000VA  | AVE208        |
|        |                           | AV05215315SVA | AVE215 – 315S |
|        |                           | AV05215315VA  | AVE215 – 315T |
|        |                           | AV05322000VA  | AVE322        |
|        |                           | AV05437000VA  | AVE437        |
|        |                           | AV05455000VA  | AVE455        |
| 06     | Rotor                     | AV06204000VA  | AVE204        |
|        |                           | AV06208000VA  | AVE208        |
|        |                           | AV06215315VA  | AVE215 – 315  |
|        |                           | AV06322000VA  | AVE322        |
|        |                           | AV06437000VA  | AVE437        |
|        |                           | AV06455000VA  | AVE455        |
| 07     | Ölgehäuse                 | AV07204000VA  | AVE204        |
|        |                           | AV07208000VA  | AVE208        |
|        |                           | AV07215315VA  | AVE215 – 315  |
|        |                           | AV07322000VA  | AVE322        |
|        |                           | AV07437000VA  | AVE437        |
|        |                           | AV07455000VA  | AVE455        |
| 08     | Gleitringdichtung         | AV08204208    | AVE204 – 208  |
|        |                           | AV08215322    | AVE215 – 322  |
|        |                           | AV08437455    | AVE437 – 455  |
| 09     | Dichtungsgehäuse          | AV09204000VA  | AVE204        |
|        |                           | AV09208000VA  | AVE208        |
|        |                           | AV09215315VA  | AVE215 – 315  |
|        |                           | AV09322000VA  | AVE322        |
|        |                           | AV09437455VA  | AVE437 – 455  |
| 10     | Wellendichtring           | AV10204000V   | AVE204        |
|        |                           | AV10208000V   | AVE208        |
|        |                           | AV10215322V   | AVE215 – 322  |
|        |                           | AV10437455V   | AVE437 – 455  |
| 11     | Laufrad                   | AV11204000VA  | AVE204        |
|        |                           | AV11208000VA  | AVE208        |

| Pos. | Bezeichnung           | Artikelnummer | Typ           |
|------|-----------------------|---------------|---------------|
|      |                       | AV11215315VA  | AVE215 – 315  |
| 11   | Laufgrad              | AV11322000VA  | AVE322        |
|      |                       | AV11437000VA  | AVE437        |
|      |                       | AV1145500VA   | AVE455        |
| 12   | Pumpengehäuse         | AV12215315VA  | AVE215 – 315  |
|      |                       | AV12322000VA  | AVE322        |
|      |                       | AV12437455VA  | AVE437 – 455  |
| 13   | Thermoschutz          | AV13215315    | AVE215 + 315T |
|      |                       | AV13322000    | AVE322T       |
|      |                       | AV13437000    | AVE437T       |
|      |                       | AV13455000    | AVE455T       |
| 14   | Kondensator           | AV14204000    | AVE204S       |
|      |                       | AV14208000    | AVE208S       |
|      |                       | AV14215315    | AVE215 – 315S |
| 15   | Kugellager-Satz       | AV15204000    | AVE204        |
|      |                       | AV15208000    | AVE208        |
|      |                       | AV15215322    | AVE215 – 322  |
|      |                       | AV15437455    | AVE437 – 455  |
|      | O-Ring-Set            | AV00204000V   | AVE204        |
|      |                       | AV00208000V   | AVE208        |
|      |                       | AV00215315V   | AVE215 – 322  |
|      |                       | AV00437455V   | AVE437 – 455  |
|      | Rührwerk ( Optional ) | AVR204208     | AVE204 – 208  |
|      |                       | AVR215322     | AVE215 -322   |
|      |                       | AVR437455     | AVE437 – 455  |

## **HINWEIS:**

Bei den 1-phasigen Ausführungen (S) ist der Thermoschutz in der Wicklung verbaut

[illegible]
